Two me events.

The two fixed events on the card were the great Eclipse stakes for two-year-olds and the New York Jockey-Club handicap or three-year-olds and upwards. The former was won by Marcus Daly's colt fammany, an outsider in the betting, thile Osrie, Dagonette, and Hell Gate were lose together at the finish and the judges ould not separate them and called a dead set. The stakes were worth to the winer about \$33,500.

The handicap also resulted in the success of an outsider in the betting. Eon at 7 to 1 took the lead in the stretch and won in very fast time. The favorite—Tristan—was shockingly ridden by Garrison or he would have been much closer up. Tournament made his third appearance in this race and showed plainly that he is getting back to his old form. The other races were all won by favorites and the talent went home satisfied. A SILVER SYNDICATE.

metallic Argument. [By telegraph to the Dispatch.]

By telegraph to the Dispatch.]

New York, June 6.—The Evening Sunsays: For several days past there has been an animated trade in silver bullion certificates upon the Stock Exchange. The price, however, has ruled steadily around 18c, per ounce, and has seemed, in Wall street parlance, to have been pegged at that figure.

It was rumored on Wall street this morning that a large French syndicate had been formed to purchase the entire stock of silver. The syndicate, it is said, was represented in this country by the bankinghouse of Heidelbach, Ickelheimer & Co., of 29 William street. The head of the syndicate in Europe is thought to be the house of Thorsch & Co., of Vienna. It is said that Messrs. Heidelbach, Ickelheimer & Co, held about 3,000,000 ounces of the stock represented by the receipts of the Mercantile Trust Company, which last night were 5,436,553 ounces.

As the needs of the syndicate, which proposes to purchase about 5,000,000 ounces, are not yet filled the silver will not as yet be withdrawn from the Mercantile Trust Company. If this weredone the shortness in the supply would become at once apparent and the price would ad-

not as yet be withdrawn from the Mercantile Trust Company. If this were done the shortness in the supply would become at once apparent and the price would advance rapidly.

The plan of the syndicate seems to be about as follows: It is thought that the stock of silver held in New York represents a large part of the whole floating supply. Last year England held a large stock of silver, but it has since been sent to Japan. India, and China. The whole production of this country is used up by the Government in meeting its legal requirements for coinage and by the arts. Hence, if Europe needs any more silver the syndicate, controlling practically the larger part of the floating supply, will be in a position to dictate the price at which it will part with it. Moreover, as election time approaches it is thought that the West will renew the silver agitation and that another effort will be made in the next Congress to put through a free-coin-

west will fensy the shver agration and that another effort will be made in the next Congress to put through a free-coinage bill. Silver went up to 120 last year on the expectation of free coinage, and if the bill should become a law this year it will undoubtedly go to that figure again.

A third point that the syndicate is said to be calculating upon is that the recent and present troubles in Europe will force the gold standard countries to adopt a bimetallic standard. During the Baring panic in November last the Bank of England, the greatest financial institution in the world, was forced to become a borrower from the Bank of France of £3,000,000. The Bank of France was able to advance this sum only on account of its ability through its charter to pay out silver as well as gold when its notes are presented for payment. payment.

Baylus Cade, editor of the Pro size Farmer, the organ of the State Alertions have been made that in an editorial in this week's paper (publishe an editorial in this week's paper (published in the Disparch) he had come out for the third party. Various rumors gaining currency, some to the effect that his utterances were distasteful to the majority of the Alliance men, others that they did not harmonize with the views of Colonel L. L. Polk, who owns the paper, Mr. Cade was asked to-day what was the meaning of the editorial.

AN HYPOTHETICAL ARTICLE.

He replied:

"It cannot be fairly considered to mean that we are in favor of a third party. The Alliance as an organization is not a partisan institution at all. As long as the Democrats stand by their present platform in this State there is no ground for independent action here. I have not seen a single Alliance man who favors the People's party, nor have I beard an intimation that any person thought the editorial was a declaration for a third party. The editorial put the whole case hypothetically. Of course I do not know what will come to pass.

Your correspondent then made the pointed inquiry:
"Do you favor the People's party?" To which Editor Cade replied:
"I do not favor the People's party save as a last resort. If it shall turn out that the people cannot secure the reforms in the public administration which are known to be necessary to the prosperity of the country within the old parties then and then only the people will act wisely to turn away from them and form a people's party." THE GENERAL MANAGER PLEASED.

Operators Will Shut Down to Test.

[Special telegram to the Dispatch.]

CHARLESTON, W. VA., June 6.—Monday will witness one of the largest miners' meetings ever held in the Kanawha Valley. The new anti-scrip and screening laws go into effect on that day, and the miners will meet here several thousand strong to ratify the laws and show their, appreciation of the efforts of Judge Ferguson, General Watts, and the other Democrats who succeeded in passing these laws in their interest. The two gentlemen named above; John Brae, national president of the United Mine-Workers of America; Hos. John McBride, Labor Commissioner of Ohio, and others will address the meeting.

PROBABLE SHUT DOWN. PROBABLE SHUT DOWN.

It is also probable that Menday
ness a general shut down of all r

the new laws and to test their constitionality. The miners are confident of ultimate victory and have decided to continue work as heretofore, but to prosecute the operators for every violation of the new laws. They will not strike, but if there is a lockout will hold the operators responsible.

TO MAKE A TEST CARE. To MAKE A TEST CASE.

The operators, it is understood, will close down but one company which will proceed to violate the new laws and get a test case into the courts. Both sides are anxious to have the laws tested, the operators because they claim the laws work hardship on them, and are unconstitutional, the miners because they claim the laws are constitutional and they want the matter settled at once as to whether they are or not.

The operators have all pledged themselves not to obey the laws and to stand together on the result. The miners will not permit any violation of the laws to poun prosecuted and what seems to be the inevitable result is a general shut down. This would effect from 4,000 to 5,000 men.

A WEEK OF LITERARY FEASTS.

The Closing Exercises of the Mario Schools-The Nipping Frosts. Correspondence of the Richmond Dispatch.

[Correspondence of the Richmond Dispatch.]

Marion, Va., June 5.—This week has been a season of literary feasts. Both the High School for boys and the Female College held their annual celebrations. These are fine institutions of learning and are patronized quite liberally. The annual addresses were delivered by Professor Mfles, of Emory and Henry College, and Dr. Lambeth, successor to Dr. Edwards, of the Centenary Methodist church at Lynchburg.

Lynchburg.

The season is all that one could desire.

All vegetation is on a boom and the prospect for good crops is very flattering, but nothing can restore the excellent fruit prospect that we had some weeks ago.

The frost was fearful and more serious than any for many years. A DEAR LESSON

The most serious frost we have had was that which nipped the Democratic party in Smyth at the recent election. So near and yet so far. I think it a good but dear lesson to the party. Over-confidence defeated it. This county has a clear majority of Democrats, about 250 or 300. The Alliance had some influence in the matter and many Democrats lent their aid to the Independent and Republican ticket. It is believed, however, that the ranks will close up when a Democratic candidate for the Levelstray is mut into the field. up when a Democratic candida Legislature is put into the field.

(By telegraph to the Dispatch.)

PHILADELPHIA, June 6.—Postmaster-General Wanamaker has been asked to appear before the committee of Councils investigating the affairs of City-Treasurer Bardsley and explain his connection with the wrecked Keystone National Bank. The committee conferred with Mayor Stuart yesterday and the result of the conference was the writing of a letter to the Posmaster-General asking him to appear before the committee at his earliest convenience and testify as to his knowledge of Keystone Bank affairs. The letter was delivered to Mr. Wanamaker at his country residence in Jenkintown to-night, Auditor-General McCamant and John and James Dobson, the latter bondsmen and assignees of Bardsley, have also been subpochaed. Revolution at Hand in Guatemala.

(By telegraph to the Dispatch.)

Sr. Louis, June 6.—A dispatch from the City of Mexico says advices have been received there from the city of Guatemala to the effect that secret meetings are being held in the altas or upper districts of Guatemala, at which revolutionary plans are being tormulated for the overthrow of the Barillas Government. These meetings are attended by some of the most prominent residents, and speeches are being made urging separation. Some of the small garrisons at the various towns are ready to join the Separationists, and many rich coffee-planters are ready to second and furnish money to erect a new republic. The people openly declare that they will no longer endure Barillas's despotism, and

GRAIN, HAY, AND MILL-FEED.

TO HORSE-OWNERS.

Made only from CHOICE CRUSHED CORN, OATS, AND RYE. Mill-feed and Linseed Meal, &c., mixed in proportions to secure the best results. Will make and keep your horse fat, sleek, and healthy. Each bushel is equal in value to one and a quarter bushels of best oats. Remember, it can only be had direct, as I positively decline to soil it through the "Feed-Dealers, and this is why some of them talk is down.

To determine the value of the oats you are feeding, throw a handful in a pail of water. The chaff will float and show you how much worthless stuff you are paying fancy prices for. Try it just for fun, and you will be both astonished and surprised.
